

and to remove a typographical error which was introduced in the last Amendment.

Claim 11 stands rejected over Rumbolt et al since at least part of the analysis taught by Rumbolt is performed electronically through the release of the "learn button" described in that reference. Claim 11 has therefore been amended to include the step of analyzing the resulting operation of the associated unit without operator intervention, thus rendering claim 11 distinguishable over the Rumbolt reference.

In accordance with the amendments and comments above, the Applicant respectfully submits all claims are now in condition for allowance and requests timely notice thereof. Any questions should be directed to the undersigned at (313) 662-0270.

Respectfully submitted,

By:
